DESIGNER BOTTEGANOVE STUDIO

Product code reference guide	MDT13_
Clay body	Vitreous clay: a highly versatile material, suitable for a wide range of applications – from wall coverings to floor surfaces. Its excellent technical properties make it particularly appropriate for demanding environments, such as exteriors or areas in permanent contact with water, including swimming pools.
Dimensions	Refer to the standard sheet composition in the drawings below
Sheets required	11,26 sheets per m ² (≈ 1,04 sheets per sq ft) when mesh mounted or film faced
Tile thickness	10 mm (≈ 3/8)
Available finishing	<ul style="list-style-type: none"> - Gloss: smooth and shiny - Satin: soft sheen, semi-matte - Iridescent: color-shifting surface with light reflection - Metallic: real metal
Suitable for:	All applications: indoor, outdoor, and submerged
Mounting type:	<p>Mesh mounted Recommended for most applications, including walls and floors. The mesh on the back allows for better flexibility during installation and easier adjustment of individual tesserae. Preferred when the substrate is slightly irregular.</p> <p>Film faced Used when mesh backing is not suitable, especially in wet areas or when a clean back is required for adhesion (e.g. pools or submerged applications). The tiles are temporarily held on a transparent film, which is removed after installation. Installation requires precision, as the tesserae can shift more easily.</p>

Recommended extra: 10% (for waste and on-site adjustments)

PACKING

Standard packing applies to both heritage and vitreous clay versions

Number of sheets per box	11
Coverage per box:	0,97 m ² 10,44 ft ²
Box weight	≈ 15 kg
Boxes per pallet (max):	42
Total coverage per pallet	41 m ² 441.3 ft ²
Maximum weight per pallet:	≈ 645 kg
Pallet overall dimensions (max):	82 x 122 x 135 cm (L x W x H)

Note: This is a handcrafted product; therefore, slight variations in size, flatness, surface texture, and shade may occur. These characteristics are inherent to the artisanal nature of the material and should not be regarded as defects. As dimensions may differ slightly from those stated in the technical sheet, Botteganove will ensure that the number of sheets supplied accurately corresponds to the surface area to be covered. Botteganove Srl reserves the right to modify this data sheet without prior notice.

SHIPPING PACKAGING GUIDELINES

For large, medium, and small shipments, we use wooden crates to provide extra protection against vibration, shock, and shifting during transport.

For large and medium shipments, we offer stackable crates to optimize shipping and storage space, helping to reduce transportation costs.

Wooden crates also provide an additional level of security, as they are typically more difficult to open than palletized loads.

GUIDELINES FOR INSTALLATION AND MAINTENANCE

Guidelines for installation and maintenance are always included with our products. They provide essential precautions and detailed instructions on how to properly install and maintain our tiles and mosaics. **Please make sure to read these instructions carefully before starting the installation.** For further assistance, don't hesitate to contact our technical department.
