Product code reference guide	xNT_Pxxx = Plain tiles
	xNT_Rxxx = Ridged tiles

Clay body	This collection can be produced using either Heritage clay (TNT_) or Vitreous clay (MTN_) , depending on the technical requirements of the project. Vitreous clay is recommended for more demanding environments, such as outdoor applications or full water immersion (e.g. swimming pools). Please note that the final color of the finish may vary slightly depending on the clay body.

Note: This is a handcrafted product; therefore, slight variations in size, flatness, surface texture, and shade may occur. These characteristics are inherent to the artisanal nature of the material and should not be regarded as defects. As dimensions may differ slightly from those stated in the technical sheet, Botteganove will ensure that the number of sheets supplied accurately corresponds to the surface area to be covered. Botteganove Srl reserves the right to modify this data sheet without prior notice.

SHIPPING PACKAGING GUIDELINES

For large, medium, and small shipments, we use wooden crates to provide extra protection against vibration, shock, and shifting during transport.

For large and medium shipments, we offer stackable crates to optimize shipping and storage space, helping to reduce transportation costs.

Wooden crates also provide an additional level of security, as they are typically more difficult to open than palletized loads.

GUIDELINES FOR INSTALLATION AND MAINTENANCE

Guidelines for installation and maintenance are always included with our products. They provide essential precautions and detailed instructions on how to properly install and maintain our tiles and mosaics. **Please make sure to read these instructions carefully before starting the installation.** For further assistance, don't hesitate to contact our technical department.
