Product code reference guide	**CPR_**
Clay body	**Obisidian clay** is a high-temperature dark brown stoneware body, rich in manganese oxide. Its remarkable strength and depth of tone make it ideal for mosaic applications. When combined with selected glazes, it creates unique and expressive chromatic effects, enhancing the surface with subtle contrasts and material richness.

SHIPPING PACKAGING GUIDELINES

For large, medium, and small shipments, we use wooden crates to provide extra protection against vibration, shock, and shifting during transport.
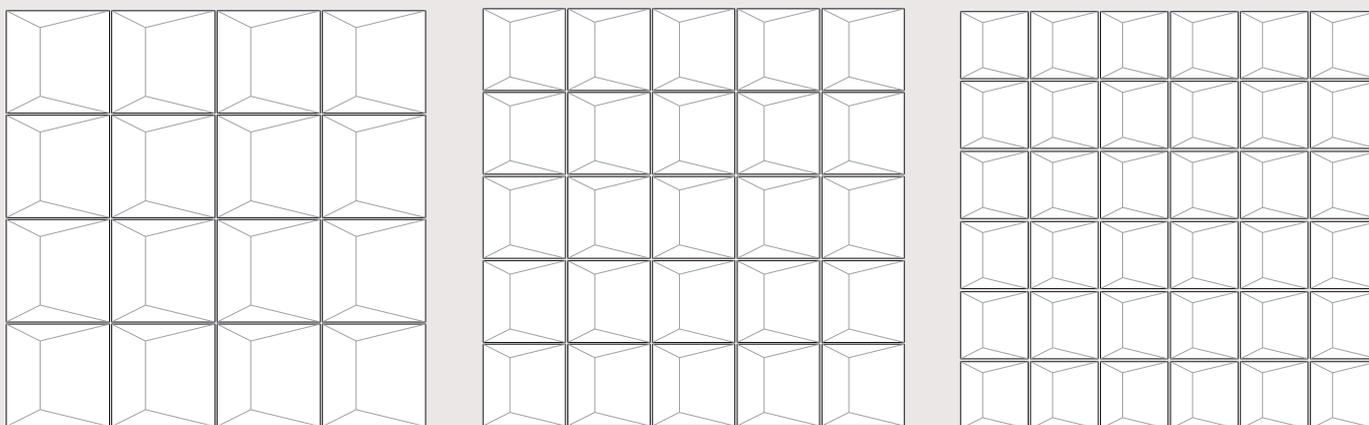

For large and medium shipments, we offer stackable crates to optimize shipping and storage space, helping to reduce transportation costs.

Wooden crates also provide an additional level of security, as they are typically more difficult to open than palletized loads..

GUIDELINES FOR INSTALLATION AND MAINTENANCE

Guidelines for installation and maintenance are always included with our products. They provide essential precautions and detailed instructions on how to properly install and maintain our tiles and mosaics. **Please make sure to read these instructions carefully before starting the installation**. For further assistance, don't hesitate to contact our technical department.
